CalDAG 2013: An Interpretive Manual And Checklist

Synopsis

Understanding new accessibility provisions for public accommodations and commercial facilities in California is made easier with this updated bestseller. CALDAG is the only book available combining and cross-referencing the 2013 California Building Code (CBC) regulations with federal 2010 ADA/ADAAG requirements!

Customer Reviews

ICC is a leading organization dedicated to developing a single set of comprehensive, coordinated national model construction codes. To date, 48 U.S. states have adopted various international codes from ICC.

Great reference...I've been buying these since they originally published them. Now that the California and federal guidelines are supposedly reconciled you would think it wouldn't be necessary but I still find this a more convenient reference than the code and other ADA publications.

All the applicable codes in an easy to find format. I'm used to using it since I was once involved in a project with the author. Previous editions of this book were valuable because it illuminated the many contradictions between State and Federal law. As the contradictions are now few, and the codes are now stable, this book is less necessary than it once was. Although you can get away with

downloading the codes for free online, you may wish to buy this book just so you can find things quicker.

CA is a nightmare for ADA compliance. Well written and concise this IS the guide by which all others live. Easy to understand and interpret.

A must have for any inspector, I am a California School Construction Inspector. This is a bit easier to understand than the DSA Access Manual.

good illustrations. would be nice to have a cross reference to old code

just what a I needed

This is the book to have. It incorporates Federal code with California, focusing on the most stringent code. I have two, one for the office and one for the work vehicle.

Great reference book.
